

**Name:** Greg Stringham

**Position:** Vice-President, Markets & Oil Sands

**Company:** Canadian Association of Petroleum Producers

**Address:** 2100, 350 – 7<sup>th</sup> Ave. SW  
Calgary, AB T2P 3N9

**Telephone:** (403) 267-1106

**Academic Background:** Professional Engineer  
B.Sc. in Chemical Engineering  
Masters in Business Administration

Greg Stringham holds a B.Sc. in Chemical Engineering and a Masters in Business Administration. He is a professional engineer.

Greg has had a broad exposure to the energy industry in his career thus far. He joined CAPP in 1995 and assumed his current role as Vice President of Markets and Oil Sands in January 1998. His responsibilities at CAPP include oil and gas markets, pipelines and oil sands issues in both the US and Canada.

Greg is an active spokesperson for the industry; providing industry and public presentations, appearing before government committees and regulators in Canada and the US, and working frequently with the media.

This role at CAPP builds on several years' experience with the Alberta Department of Energy where he dealt with a broad spectrum of energy policy in natural gas, oil and oil sands from royalties to megaprojects. Prior to government, Greg held several positions at Syncrude Canada Ltd. in areas ranging from research to project development.

The Canadian Association of Petroleum Producers (CAPP) represents companies, large and small, that explore for, develop and produce natural gas and crude oil throughout Canada. CAPP's member companies produce about 90 per cent of Canada's natural gas and crude oil. CAPP's associate members provide a wide range of services that support the upstream crude oil and natural gas industry. Together CAPP's members and associate members are an important part of a \$110-billion-a-year national industry that provides essential energy products. CAPP's mission is to enhance the economic sustainability of the Canadian upstream petroleum industry in a safe and environmentally and socially responsible manner, through constructive engagement and communication with governments, the public and stakeholders in the communities in which we operate.
